VOL. XXX.

RENO, WASHOE COUNTY, NEVADA, WEDNESDAY, NOVEMBER 26, 1890.

NO. 49.

## LATEST FROM CHINA.

## A Costly Blaze In Portland, Or.

## ANOTHER COLLIERY EXPLOSION.

## Fraud Suspected in an Okla- homa Bank Failure.

## Brazilian Men-of-War in New York Harbor.

## The Stock Market.

By Associated Press.  
NEW YORK, Nov. 26.—Stocks opened comparatively quiet generally a fraction lower. They displayed no inclination to go farther downward, however, until pressure was suddenly brought again to bear and the market sprang into activity. Within half an hour, sugar, which was the most active, showed a loss of 3, at 48; Pacific Mail yielded 14; Northern Pacific preferred 1; Atchison showed marked strength during the raid, and in the rally which followed, advanced materially.

The improvement was as sharp as the decline, and the losses were quickly regained in all leading shares at top figures. Union Pacific showed a gain over the opening of 14, the rest being generally small fractions higher than at the start. These prices were not fully maintained, but a firm tone continued. At 11 the market was fairly active and firm, generally at something better than the first prices.

LONDON, Nov. 26.—12:30 P. M.—Stocks are quiet. Foreign Governments and American railways weak; others steady.

Stocks remained very quiet after 11, but the upward movement continued and almost everything reached still higher prices than during the first hour. Union Pacific was a leader in the movement; sugar rose to 50 1/4 against 48 at the lowest point. At noon the market was quiet and firm at the best prices of the morning.

Latest from China.  
Special to the GAZETTE.

SAN FRANCISCO, Nov. 26.—The steamship *Gaelic* arrived this morning from China and Japan.

The Chinese man-of-war *Ching Yuan*, which was reported lost off the Cape of Brunt, succeeded in getting into port with several of her compartments full of water. Her stem was broken, her ram driven in and her bottom pierced by the rocks. She has been ordered to Shanghai for repairs.

The Naval Court of Inquiry in the case of the British ship *Lizzie C. Troop*, Captain Founes, which was lost off Loo Choo Islands on September 22d, has exonerated the officers of the vessel, finding that the casualty and the accompanying loss of life was unavoidable.

Brazilian Men-of-War.

By Associated Press.  
NEW YORK, Nov. 26.—The Brazilian warships which arrived at quarantine late yesterday afternoon and anchored there for the night, weighed anchor shortly after 8 o'clock this morning, and steamed slowly up the bay and North river to a point opposite Twenty-fourth street, where they anchored again. They were escorted by the American gunboat *Yorktown* and the despatch boat *Dolphin*. As the *Dolphin* passed the quarantining the guns at Fort Wadsworth and Governor's Island boomed forth a salute, to which the Brazilian cruiser *Aquidabon* responded.

World's Fair Matters.

By Associated Press.  
CHICAGO, Nov. 26.—The World's Fair managers this morning voted to request the management of the Fair to close the show on Sunday.

The National World's Fair Commissioners this morning discussed at some length the report of the Committee on Buildings and Grounds and adopted it. California opposed the adoption of the report on the grounds of incompleteness and moved the buildings be erected of glass, steel and iron, and be made fireproof. The motion was defeated.

A Portland Blaze.

Special to the GAZETTE.  
PORTLAND (Ore.), Nov. 26.—Early this morning a fire occurred in the kitchen of North Pacific Hotel. The building was entirely consumed, also the adjoining building occupied by the Oregon Pottery Company, together with a large quantity of lumber belonging to the North Pacific Mill Company. The mill was saved by a great effort. The total loss is estimated at \$150,000; fully insured. David Donan, a guest of the hotel, leaped from the second story, sustaining slight injuries.

## A Habeas Corpus Case.

By Associated Press.  
CHICAGO, Nov. 26.—Judge Gresham of the United States Circuit Court this morning issued a writ of habeas corpus to Charles Counsellman, the Board of Trade man, who refused to answer the questions of the Inter-State Commission regarding the discriminations made in his favor by the railway companies, on the plea that his answers might criminate him, and was fined by Judge Blodgett. Judge Gresham will hear the arguments on Friday.

## Crookedness Suspected.

By Associated Press.  
GUTHRIE (Oklahoma), Nov. 26.—The Sheriff has now in charge the Commercial Bank, engaged in taking an inventory of the assets. The creditors are trying to break the assignment, claiming it was bogus, and made for the purpose of covering up a fraud which was undoubtedly perpetrated. According to the Sheriff, the cash in the vaults does not exceed \$5,000.

## Fatal Explosion.

By Cable and Associated Press.  
LONDON, Nov. 26.—An explosion occurred in a colliery near Bolton today, by which eight miners were killed.

## Communicated.

EDITOR GAZETTE: In the *Journal* of Tuesday last appeared a local article mentioning the narrow escape of a Remoite from the random shots of some of the militia marksmen practicing at the target grounds. The article was manifestly incorrect and only added insult to injury.

While indulging his undoubted right as an American citizen to enjoy a walk, a resident of Reno was deliberately made a target of some member of the Reno Guard, while practicing at their range, the bullet passing within a foot of his body—only a timely movement prevented him from being shot by a second marksman, who aimed at him from a rest.

The occurrence was indeed humorous enough to provoke the article in the *Journal*, which falsely stated that the man fortunate enough to escape the playful bullets, came down the mountain side and fledgally took him for a hillside target.

That Captain Cutting, the Captain of the day, in charge of the practicing detail of the State Militia Guards, within a prescribed range and abundance of eligible and safe target room, should allow any of the men under his command to take random shots at passing objects on the neighboring hillside or mountain, totally outside the shooting range, is incomprehensible, especially as it is affirmed that one of the shooters, before he fired his Springfield, remarked: "Now see, how I'll make that fellow jump." Aside from the charitable opinion that Captain Cutting can have but a feeble conception of right and wrong, the occurrence can only be explained by the fact that he has been studying and exploring the dark recesses of the law under the guidance of the present District Attorney, who upon consultation with the subject unbothered himself of the following profound opinion: "You will have to prove that they shot with intent to do you great bodily harm."

I asked him if I shot at a man just to see him jump if I would be liable or not. His answer was "No." \*  
FRED ISMER.

## An Old Tree.

The Homer Index says: Mountain mahogany, so very plentiful around here, is equal to hard coal as fuel. At this altitude the wood is about as solid as iron. Yesterday several inquisitive persons took turns at counting the concentric layers of growth in a stump 12 inches in diameter, and found 1942. The counting had to be done with the aid of a strong magnifying glass, and was tedious work. It shows that the tree made its first ring before the advent of Christ. A section of it will be sent to the State Mining Bureau, and another will be prepared for exhibition at the World's Fair in Chicago in 1892.

## San Francisco Meat Market.

All kinds are in liberal receipt, and dealers do not expect any interruption in regular supplies. Hogs are a shade cheaper. Following are the rates for whole carcasses from slaughterhouses to San Francisco:

BEEF—Quarters at 25¢; second quality, 24¢; 1/2, 23¢; 1/4, 22¢; VEAL—Quotable at 26¢ for large and 22¢ for small.

MUTTON—Quotable at 26¢.

PORK—Live Hogs, on foot, grain fed 33¢; light, 40¢; dressed Hogs, 65¢.

## Nevada Sweet Potatoes.

Pioche Record: Bob Logan came up from the Muddy Valley Wednesday, the 19th inst., loaded with produce from his place, including a lot of fine sweet potatoes and some of the finest dried peaches we ever saw. The peaches were dried in an evaporator and came out bleached to perfection and possessed of all their original flavor.

## Business Failure.

By Associated Press.  
MINNEAPOLIS, Nov. 26.—Dispatches from Duluth say the banking house of Bell & Oyster has failed; liabilities, \$715,000; assets, \$1,200,000. The bank was on the bonds of the Forrestal Brothers, the St. Paul contractors, who failed a short time ago. This led to a distrust, and weakened the credit of the bank, which made it impossible to secure cash to meet its obligations.

## Church Notices.

M. E. CHURCH.—Union Thanksgiving services will be held to-morrow at the M. E. Church. Sermons by the Rev. John Barr, the other pastors aiding in the exercises. Everybody go to the church at 11 A. M., then enjoy your dinner with a thankful heart.

## The Public School.

The Public School entertainment this afternoon was well attended and the scholars acquitted themselves with credit. Space forbids the *GAZETTE* mentioning each one in detail, but suffice it to say that they all did well.

## U. P. CHANGES.

## Oregon Improvement Company in a Fix.

## INDIANS SEEM MORE QUIET.

## More Business Failures Re- ported in the East.

## Parnell Will Probably Retire from the Leadership.

## An Atrocious Crime Committed at Wells, Nev.—The Murderer Ar- rested.

Special to the GAZETTE.

WELLS (Nev.), Nov. 26.—The body of a man was found this morning in the sagebrush, near the Clover Valley road, with a bullet hole through the head and his throat cut from ear to ear. By papers found on his person his name is supposed to be Louis Locasere, and has been a hotel cook at Oden, from which place he came yesterday morning. He left Wells yesterday in company with a young man named Ben Morris, who borrowed a team and returned late in the evening. Morris skipped on train No. 2, and was arrested at Winnemucca. Morris remarked to a party when he came back that he had killed a man, and was well heeled.

## A Change of Presidents.

By Associated Press.

BOSTON, Nov. 26.—The President of the Union Pacific delivered his address of resignation, which was accepted, and Dillon has assumed the office of President. The resignations of John P. Spaulding, James A. Ramill, and Samuel Carr, Jr., were accepted, and Messrs. Jay Gould, Russell Sage, H. C. Hyde and A. E. Orr were elected directors in their places. Sidney Dillon, already a director, was elected President. The resignation of Vice-President Lane was not accepted, and he will be retained in that position.

After a discussion of the situation the meeting adjourned.

Just before the adjournment, the directors elected Gould and Sage to the Executive Committee, in the place of Adams and Rumrill, Hyde and Orr to the Financial Committee, in the place of Rumrill and Spaulding, and Gould to the Committee on Connecting Roads, in the place of Adams.

Dillon, in accepting the office of President, thanked the Board for its expression of confidence, and declared his intention to do everything in his power to forward the interests of the company.

The Executive Committee, now consisting of Gould, Ames, Atkins, Dexter, Dillon, Sage and Plummer, then went into session.

At the meeting of the Executive Committee, the name of S. H. H. Clark, Vice-President of the Missouri Pacific Railroad, was mentioned for the position of General Manager of the Union Pacific, but no action was taken, and the committee adjourned without the transaction of any business of public interest.

## A Hopeful Sign.

By Associated Press.

WASHINGTON (D. C.), Nov. 26.—The War Department this morning received news that the Cheyenne Indians have abandoned the war dance. They have come in for their rations, and this is regarded as a hopeful sign of an abatement of the excitement. Twelve hundred scouts have enlisted, and it is hoped this will exert a strong peaceful influence through the family and tribal relations.

A special from Pine Ridge says an order was issued this morning postponing the beef issue until to-morrow, and ordering all strangers, except newspaper correspondents, off the reservation. About 6,000 Indians are swarming in and about the agency, and a hundred more Indians are being sworn in as police.

## Business Failure.

By Associated Press.

MINNEAPOLIS, Nov. 26.—Dispatches from Duluth say the banking house of Bell & Oyster has failed; liabilities, \$715,000; assets, \$1,200,000. M. E. CHURCH.—Union Thanksgiving services will be held to-morrow at the M. E. Church. Sermons by the Rev. John Barr, the other pastors aiding in the exercises. Everybody go to the church at 11 A. M., then enjoy your dinner with a thankful heart.

## The Public School.

The Public School entertainment this afternoon was well attended and the scholars acquitted themselves with credit. Space forbids the *GAZETTE* mentioning each one in detail, but suffice it to say that they all did well.

## Parnell Declines.

By Cable and Associated Press.

LONDON, Nov. 26.—Thirty-eight Parnellites last night signed a request asking Parnell to convene a meeting of the Nationalists members of the House to-day. Parnell declined, despite the fact that the rules of the party provide that a meeting shall be called when twenty members shall sign a request. Several Parnellites complain that they were not informed of the full facts in connection with Gladstone's attitude toward Parnell as set forth in his letter to Morley when they voted yesterday to retain Parnell in the leadership.

A stormy scene occurred at a meeting of Parnellites last evening after the letter from Gladstone to Mr. Morley had been made public. The action of McCarthy in not making known the contents of Gladstone's letter at the meeting in the morning as requested, was severely criticized.

A majority of the Nationalists present last night said they believed, previous to the meeting in the morning, that Parnell, after his re-election, would not take an active part in the politics for a few months, and they now believe that if Gladstone's letter had been read at the meeting, the result on the motion to retain Parnell in the leadership would have been different. Gladstone and Morley held a conference this afternoon to consider the situation. *Truth*, Henry Labouchere's paper, abandons Parnell.

## Chinese Highbinder.

Special to the GAZETTE.

SAN FRANCISCO, Nov. 26.—Ah Tuck, a Chinese tailor employed by W. Cohn, while on his way to work this morning was fired at several times by a highbinder, who afterwards gave the name of Ah Lee. The latter was captured. The reason for the shooting is unknown.

## NEVADA'S FALL.

## A Night that Makes the Human Family Happy.

There has been no dull thud in our clear skies for several months, and the weather during this entire fall has been perfect and could not be excelled any where under the sun. It has been like Longfellow's "Arcadia," so tranquil and peaceful that even the predictions of General Irish have not disturbed it. And the life-giving qualities of our bracing air eclipse the discovery of Dr. Koch, for tuberculosis cannot exist here, the diseased cells of the lungs heal up and "grow by what they feed on"—the bracing air of the arid wastes—that will maimify a dead ox and leave his hide for a bee hive, in all the rotundity of life for years.

Although last night Parnell refused to call a meeting of the Irish members of the Commons, a meeting was held to-day. Parnell was present and presided. Silence was preserved as he entered the room. After calling the meeting to order, Parnell explained that he had re-considered his determination and had called the meeting. The meeting lasted half an hour. There was a great divergence in opinion manifested throughout the discussion. No definite action was agreed upon, and the meeting adjourned to 5 o'clock this evening.

The feeling that Parnell deceived the members of the Irish party at the meeting yesterday is so strong that a motion will probably be made at the meeting to be held to-day to expel him from the leadership if he refuses to resign. Gladstone had frequent conferences with his colleagues this forenoon, and when Gladstone entered the Commons he was loudly cheered by his colleagues. Parnell was present and occupied his usual seat.

Parnell's speech at the opening of the meeting gave no indications of his intention to alter his decision to retain the leadership. Nolan was the only member present who favored Parnell's retention of office. McCarthy, whose frequent allusion to Parnell's great sacrifices for the Irish cause was applauded, said he hoped after due consideration, Parnell would set the way to retire for the present and save the sacred cause of Irish independence. Sexton said he regretted that Mr. Gladstone's views regarding the leadership had been withheld yesterday, and sympathetically appealed to Parnell to reconsider his position; that the question had assumed a new phase since the publication of Gladstone's letter; that personal considerations must be sacrificed for the cause.

Parnell maintained an attitude of reserve throughout the meeting. It was hoped the call from the delegates in America would reach London before the meeting adjourned, but none had been received. The decision to reassemble at 5 o'clock was caused by a hope that dispatch would arrive in the interval.

The Nationalists met again, but adjourned until Monday without action.

## In a Bad Financial Condition.

NEW YORK, Nov. 26.—The Oregon Improvement Company to-day issued an official statement that it would default on the interest of its first mortgage, due on December 1st, and be unable to comply with the sinking fund provisions. The floating debt amounts to \$2,000,000 in demand loans, with the new consolidated bonds as securities.

In order to give the GAZETTE force Thanksgiving Day that one and all may celebrate it in his own way, there will be no paper issued from this office to-morrow.

### Thanksgiving.

To-morrow each one of us should devour our share of the family gobbler and plum pudding with a degree of satisfaction for being permitted to live in this age. More particularly should we of Nevada bow our heads and render thanks to Him, the giver of all good, for suggesting to the Republican State Convention the Australian ballot system. By the grace of God and the sake we were able to know Mr. Winter's under, and for that we should be thankful.

More especially should we be thankful to somebody for being permitted to be on this earth during the last campaign and witness the Enterprise and Chronicle throw spit-balls at each other with such unerring accuracy.

We should be ten fold grateful for living in the age that the Silver State was run by Editor Kelley and in being permitted to read his editorials on "Boss Yerington" and "Private-reason Bartine," and for the further blessing, if such it may be called, for being able to witness the acts of the Democratic Board of Commissioners in trying to get themselves and their political associates into office and have their tracks so nicely concealed by the unerring editor of the paper in question.

For these and sundry other blessings that have been vouchsafed to us during the past year do we return our heartfelt thanks. While there are some things that we might change, and among them the fact that the Journal cannot answer a civil question without becoming frosty and getting angry, in the main we shall sit down to our turkey and goose to-morrow and be as happy as a clam at flood tide.

OUR barns are full and our grainers likewise, and the cellars are well stored with fruits and vegetables. Our stock is all fat and sleek. The people of this commonwealth have enjoyed, as a rule, good health during the past year. The deadly cyclone has given us a wide berth; pestilence and famine are unknown in our midst. Sunny skies and an invigorating atmosphere have been our lot, and for all these blessings do we return thanks to an All-Wise Providence. To-morrow let us all rest from our labors and worship God in our own way.

A MAIL carrier named Arnold is the only Republican in Harrisburg, Missouri, and since the election, according to a local paper, he apologizes to every person he meets for being alive and cumbering the earth with his presence. —*Virginia Chronicle*.

The fire-eaters of the South can tolerate one Republican, but the mail carrier in question evidently thought it was better to be on the safe side.

THE Democratic party would like to see American labor on a level with coolie labor in China, in order to give us "cheap" shoes and "cheap" cloth. It don't care a whit how much it degrades the invention of American mechanics so long as it gets us "cheap" liquor and "cheap" living.

It is not at all surprising that the Democratic press of the State and Nation are in sympathy with England on the Tariff question? This is the first time since the war that they have had a chance to reciprocate England's friendly feeling for them in their time of trouble.

WHAT percentage of the members-elect of the Nevada Legislature has read the Constitution of the State? It is safe to say that not one in ten knows anything about its provisions or what changes, if any, are desirable.

We do not believe the Democratic press of this State wants to see a Republican Legislature pass the Australian ballot system law. It would break them up in business.

THE Tariff bill will bring the Nation prosperity, elevate the labor of American mechanics and make money plenty in the near future.

A XENO land company has just been formed in Georgia with a capital of \$100,000.

Under the new contract for stamped envelopes the Government will save \$300,000 in the next four years.

## OUR COLUMN.

### These Are the Books

### We Are Giving Away.

This book contains 480 pages; is eight and one-half inches long, six inches wide and two inches thick. It is printed on extra heavy paper and is handsomely bound, with embossed cover and gilt-lettered back.

It is different from all other works ever published.

First — It teaches those who have it how to tell what the matter is when a person gets sick.

All similar books tell what to do if you know what the disease is. This book tells you HOW TO DETECT THE DISEASE, and then what to do for it.

No other book published does this.

Second — When a person is really attacked by a dangerous disease, it enables you to know the fact, and in such cases its advice is: "Send for a competent physician at once." But in all ordinary cases, such as can be easily cured, it gives full directions for treatment.

Third — It is not confined to the practice used by any one class of physicians; but it gives, separately, and for each disease, the methods used by each of the different schools of medicine, and in ALL CASES the PRESCRIPTIONS ARE MADE by the MOST EMINENT MEN in their respective modes of practice. This makes the work specially suited to the needs of every family, no matter what medical school they prefer.

Wednesday, December 10th, 1890, shall be declared delinquent, and advertised for sale at public auction on the 10th day of January, 1891, at the office of the Company, 1249 Commercial Row, to such delinquent assessors of advertising and expenses of sale. By order of the Board.

W. G. CAPPREY, Secretary, Reno, Nev., Nov. 10, 1890.

No other book published does this.

### TESTIMONIALS:

I have examined the advance sheets of "Our Family Physician" It gives me pleasure to say that it is superior in its mode of treatment of disease, and it deserves wide circulation.

"Mrs. Greenfront, you must permit me to say that I am not in the habit of prescribing for dogs."

"What! Don't you know anything about their diseases?"

"I do not."

"Never had any practice whatever in attending upon them?"

"Never!" exclaimed the disgusted doctor.

"Then I couldn't think of letting you prescribe for him," she said, decidedly and emphatically, as she wrapped the animal up in the shawl with the utmost care. "Dear little Gyp," she murmured, caressingly, "what a narrow escape you have had!"

And taking the bundle up in her arms she hustled out of the office, leaving the fashionable doctor of the aristocratic avenue petrified with astonishment.

**A CASHIER'S REVENGE.**

How a Chicago Man Got Ahead of a Haughty Bank President.

The cashier of a South Water street house and the president of one of the biggest banks in town had a financial disagreement Saturday afternoon and, according to the Chicago Tribune, the cashier came off victorious. The bank is noted for its unbending business methods. A draft for \$1,500 on the South Water street firm came to the bank. The officers demanded payment with a certified check before they would turn over the bill of lading accompanying the draft. The cashier of the fruit house and the president of the bank had a lively conversation through the telephone.

"Our check is good at any bank in town," said the young man. "We can't keep a stock of certified checks on hand."

"We won't accept any thing but a certified check," said the president.

The young man returned to his desk and thought. Then he hired a horse and buggy and drove over to another bank, where he drew out \$1,500 in big silver dollars. He placed them in a bag and drove back to the store, where two laborers carried the heavy load into the office. At four o'clock the notary of the bank appeared.

"There's your money," said the young man, triumphantly pointing to the bag. The notary tried to lift the bag, but he was not strong, and 1,500 of those cartwheel dollars weigh over 85 pounds. The bag never budged. The notary pleaded to be allowed to have the bag carried over to the bank. The young man insisted that he must have his draft and his bill of lading at once and that the necessary counting must be done in the store. The notary was profane, but profanity didn't do any good, and he was diplomatic, and diplomacy failed to work. In the end he was forced to send for three clerks to count the money and hire an express wagon to carry the bag to the bank. Then he turned over the paper and the young man locked the safe and went home to prepare for the peaceful Sabbath day.

It is customary with newspapers to give premiums to new subscribers only; but the publishers of the WEEKLY GAZETTE mean to revise this rule; they intend to do as well as any by giving additional premiums — those who have stood by the paper in years past, and paid their money for its right and straight dealing, will be rewarded.

The other chapters refer to are equally well written and valuable, see "Our Plan" on the page.

We have a number of the books on hand, and we invite inspection.

There are three chapters in the "Family Physician" which are worthy of special mention, namely, those on "Diseases of Women," "Diseases of Infants" and "Care of the Sick."

The first of these is a model of its kind, and is in a picture frame, contains no disgusting pictures, children to happen on and be overcurious about, and taken altogether is the most practical, sensible and straightforward treatise on this delicate subject that has ever been printed.

This chapter alone is worth more than the cost of the book to every mother, even if it had to be purchased at its regular price.

The other chapters refer to are equally well written and valuable, see "Our Plan" on the page.

This chapter alone is worth more than the cost of the book to every mother, even if it had to be purchased at its regular price.

We have a number of the books on hand, and we invite inspection.

There are three chapters in the "Family Physician" which are worthy of special mention, namely, those on "Diseases of Women," "Diseases of Infants" and "Care of the Sick."

The first of these is a model of its kind, and is in a picture frame, contains no disgusting pictures, children to happen on and be overcurious about, and taken altogether is the most practical, sensible and straightforward treatise on this delicate subject that has ever been printed.

This chapter alone is worth more than the cost of the book to every mother, even if it had to be purchased at its regular price.

MISCELLANEOUS.

**Scrofula**

In Its Worst Form—"White Swelling" Cured.

The remarkable effect of Hood's Sarsaparilla in the following case illustrates the power of this medicine over all blood diseases:

"My son, 7 years old, had a white swelling come on his right leg below the knee, which contracted the muscles so that his leg was drawn up at right angles. Physicians lanced the swelling, which discharged freely, but did not help him materially. I considered him."

**A Confirmed Cripple.**

I was about to take him to Cincinnati for an operation, expecting his leg would have to be taken off, and began giving him Hood's Sarsaparilla in order to get up his strength. The medicine woke up his appetite, and soon pieces of bone were discharged from the sore.

We continued with Hood's Sarsaparilla, as it seemed to be doing him so much good, and the discharge from the sore decreased, and the leg straightened out, and in a few months he had perfect use of his leg. He is now apparently as well as ever." JOHN L. MCKEEHAN, Notary Public, Rensselaer, W. Va.
